Reviews

This book is great. I have go through and so i am confident that i will going to read through once again again in the future. I am just easily can get a satisfaction of looking at a written book.

(Miss Vernie Schimmel)

THE ETHICS (PAPERBACK)

Dover Publications Inc., United States, 2018. Paperback. Condition: New. Reprint. Language: English. Brand new Book. What does it mean to live an ethical life? For seventeenth-century philosopher Benedict de Spinoza, this question led to a doctrine in which God is present in all things and the human mind is part of God's infinite intellect. Spinoza regarded ethics as a rational system corresponding to the rational nature of the universe and employed a deductive method derived from Euclidean geometry to show that the validity of ethical ideas can be demonstrated by a mathematical style argument. His conclusion: to be guided by reason is to live freely, motivated by love and goodwill rather than fear or hatred. These ideas challenged both conventional views of God and the related social and political structure. Reviled by the religious authorities of his native Amsterdam, Spinoza remained an uncompromising model of intellectual courage. His vision, published posthumously as *The Ethics*, has served as an inspiration to Enlightenment philosophers, Romantic poets, and generations of thinkers.
